Making a difference when it counts

How your support will help

We're an independent charity that provides free compassionate care for people in North Hampshire who have a life-limiting illness, need end-of-life care or are experiencing bereavement.

We only receive 16% statutory funding, which means we need to **raise £14,000 a day** to continue providing our vital care. We can **only do this with the help of our amazing community** who donate and fundraise in aid of us.

*"I'd never been into any Hospice before, I thought it would be gloomy and sad. When we arrived it was light, bright and people were smiling. At that moment a weight was lifted off my shoulders. Everyone was kind, I went home that night and had the best night's sleep knowing **my Maggie was in the best place for her needs.**" Roger, volunteer and patient family member.*
